

Arthur (AJ) James was born in January 2019 with Hypoplastic left heart syndrome and a rare genetic disorder Bardet-Biedl. He spent the first 10 months of his life in the ICU at Children's National in DC. AJ has had 5 open heart surgeries and 3 additional surgeries, suffered a stroke and a mini-stroke, and currently is on hospice care as we are out of options for his heart. AJ has spent a good part of his life in the hospital. He is the sweetest boy you'll ever meet. He has overcome so much in his short life and continues to show us God is in control. AJ goes to preschool and enjoys playing with his teachers and friends. At home, AJ enjoys playing with his sisters and watching Toy Story and Spidey.
